# Practice Parson's 8.3A

Practice Assignment

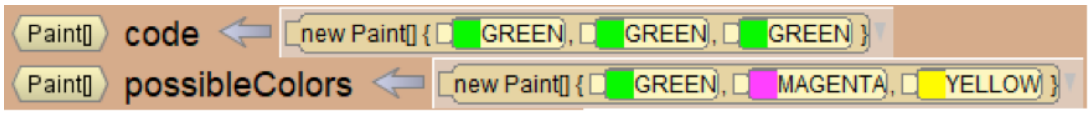
## Your grade: 75%

Your latest: **75%** • Your highest: **75%**

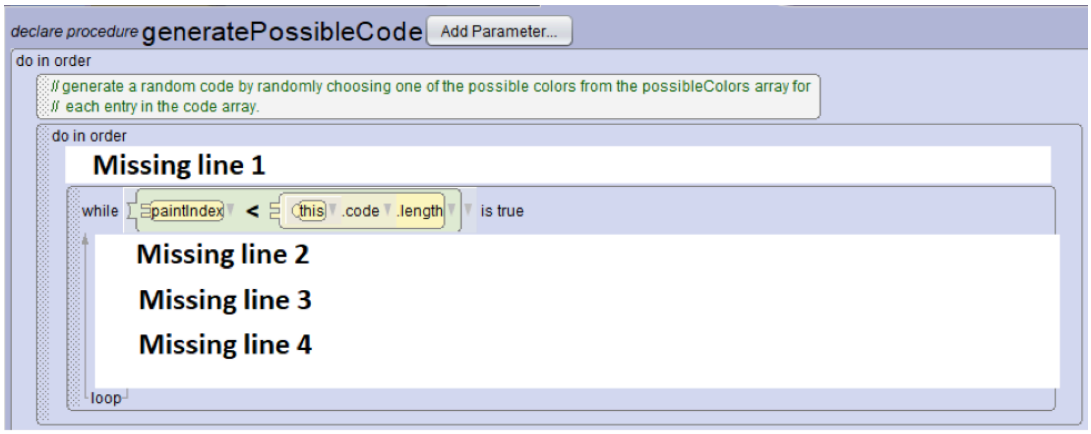
To pass you need at least 70%. We keep your highest score.

Next item →

**1.** Consider the following two arrays. 1 / 1 point



Write the **Scene** procedure named **generatePossibleCode** that generates a random code of Paint colors and stores them in the Paint array named code. The possible colors to pick from are the colors in the Paint array named possibleColors. The code has been started for you and is missing four lines of code.



declare procedure generatePossibleCode
Add Parameter...
do in order
// generate a random code by randomly choosing one of the possible colors from the possibleColors array for
// each entry in the code array.
do in order
Missing line 1
while paintIndex < this .code .length is true
Missing line 2
Missing line 3
Missing line 4
loop

Which line of code should go in Missing line 1?
